HVAC, Mechanical, and Electrical
We give you solutions
Professionalism, expertise, and service with best quality are the important icon that always kept by PT TUN in term of serving in Mechanical and Electrical services

On the globalization era, where the business competition is quiet tight, is becoming our challenge to provide best services to the community and pro actively participate in development act in Indonesia, without avoiding the territorial autonomy the supportive competition among the states/provinces hopefully could grow and develop to the healthy and prosperous country.

In term of developing the corporate, through this moment we proudly introduce:

“PT TATA UDARA NUSANTARA”

Establish on September, 2002, with the notaries’ deed of construction services, specialize for HVAC, Mechanical, & Electrical.

The company's philosophy is to provide best services, by then we hope the opportunity and trust will invite us to participate in executing current and future projects.

Finally, thank for your attention, trust, and cooperation in effort to develop our nation and country.

Jakarta, September 2002

Director
